VPDES General Permit Registration Statement - Industrial Activity Storm Water Discharges (VAR05)

General

A Registration Statement must be submitted when an owner makes application to the Department of Environmental Quality for coverage under the VPDES General Permit for Storm Water Discharges Associated with Industrial Activity. Discharges from any of the industrial activities described in the table on page 2 of these instructions are eligible to apply for coverage.

Section 1 Owner Information

Give the legal name of the person, firm, public organization, or any other entity that owns the facility or site described in this registration statement. The name of the owner may or may not be the same as the name of the facility. The responsible party is the legal entity that controls the facility's operation, rather than the plant or site manager. Do not use a colloquial name. Enter the complete address and phone number of the owner.

Section 2 Facility Information

Enter the facility's or site's official name and complete street address, including city, state and ZIP code. Also include a contact name and phone number.

Section 3 Legal Status

Indicate the appropriate legal status of the owner of the facility.

Section 4 Name of the Receiving Waters

Enter the name of the receiving water(s) for the storm water discharges (e.g. Clear Creek, unnamed tributary to Clear Creek, etc.).

Section 5 Additional Discharge Information

If the storm water discharges to a municipal separate storm sewer system (MS4), enter the name of the operator of the MS4 (e.g. municipality name, county name). An MS4 is defined as a conveyance or system of conveyances (including roads with drainage systems, municipal streets, catch basins, curbs, gutters, ditches, man-made channels, or storm drains) that is owned or operated by a state, city, town, borough, county, parish, district, association, or other public body which is designed or used for collecting or conveying storm water.

Section 6 Existing VPDES Permits

List the VPDES permit numbers of all existing VPDES permits issued to the facility or site identified in Section 2.

Section 7 Coal Pile Storage

Indicate whether or not the facility discharges storm water runoff from coal pile storage.

Section 8 Storm Water Pollution Prevention Plan

Indicate whether or not a storm water pollution prevention plan has been developed for the facility that meets the requirements of the general VPDES Permit for Storm Water Discharges Associated with Industrial Activity. All facilities must prepare and implement a plan prior to submitting the registration statement.

Section 9 Location Map

Attach to the registration statement a copy of a topographic map or another map, drawn to scale, that clearly shows the location of the facility, the location of all storm water discharge points, the water body or water bodies that receive the storm water runoff and any other surface waters within a 1/2 mile radius of the facility.

Section 10 Facility SIC Codes

Identify up to four 4-digit SIC codes or 2-letter Industrial Activity Codes that best represent the principal products or services rendered by the facility and major co-located industrial activities. The 2-letter Industrial Activity Codes are: HZ - hazardous waste treatment, storage, or disposal facilities; LF - landfills/disposal facilities that receive or have received any industrial wastes; SE - steam electric power generating facilities; or, TW - treatment works treating domestic sewage

Section 11 Applicable Industrial Sectors

Attach to the registration statement a list identifying all applicable industrial sectors that cover the discharges associated with industrial activity from the facility and from major co-located industrial activities that will be covered under this permit. Also identify the storm water outfalls associated with each identified sector. The industrial sectors are listed in Table 1.

Section 12 Certification

State statutes provide for severe penalties for submitting false information on this Registration Statement. State regulations require this Registration Statement to be signed as follows:

For a corporation: by a responsible corporate officer. For the purpose of this section, a responsible corporate officer means: (1) A president, secretary, treasurer, or vice-president of the corporation in charge of a principal business function, or any other person who performs similar policy- or decision-making functions for the corporation, or (2) the manager of one or more manufacturing, production, or operating facilities provided the manager is authorized to make management decisions which govern the operation of the regulated facility including having the explicit or implicit duty of making major capital investment recommendations, and initiating and directing other comprehensive measures to assure long term environmental compliance with environmental laws and regulations; the manager can ensure that the necessary systems are established or actions taken to gather complete and accurate information for permit application requirements; and where authority to sign documents has been assigned or delegated to the manager in accordance with corporate procedures; **[Note: if the title of the individual signing this form is "Plant Manager", submit a written verification that the authority to sign documents has been assigned or delegated to the manager in accordance with corporate procedures];**

For a partnership or sole proprietorship: by a general partner or the proprietor; or
